Dear Brad,

Even though I have only worked with M. Lizen about 4 years, I would like to say what an exceptional supplier you are. Anytime I have any questions regardless of area, quality or engineering, my questions are answered promptly. Delivery and service have not been an issue, which is important in the manufacturing process.

Thank you for your continued help and support. Keep up your excellent practices and I am sure your company will have much success.

Sincerely,
